INTRODUCTION TO THE VISION

WHERE VISIONARY CAPITAL MEETS THE WORLD'S FASTEST-GROWING MARKETS

The global economic compass has shifted. As China transitions toward a high-quality, tech-driven economy and Africa emerges as the world's next industrial powerhouse under the African Continental Free Trade Area (AfCFTA) headquartered in Ghana, a historic window of opportunity has opened.

- ▶ The **Africa-China Business & Investment Summit** is not just an event; it is the definitive **transactional engine** for the new era of Win-Win cooperation between Africa and China.
- ▶ While others talk about the future, we are building it. This summit serves as the exclusive gateway for Chinese manufacturers looking to localize production and African industrialists seeking the technology and capital to scale.
- ▶ We focus on the high-growth corridors of **West-Africa**, while not limiting engagement and impact, the entire continent of Africa is on our lenses where the demand for infrastructure, renewable energy, and digital transformation, and other reforms is at an all-time high.

WHY AFRICA-CHINA BUSINESS & INVESTMENT SUMMIT?

THE ECONOMIC RELEVANCE TO AFRICA'S ECONOMY

1. It Shifts the Narrative from "Aid" to "Arbitrage"; Most Africa-China events focus on "development aid" or "diplomacy", this focuses on Business Arbitrage.
 - ▶ The Logic: China has the excess industrial capacity and technology; West Africa has the raw materials, young labor, and growing consumer demand.
 - ▶ Why it works: It appeals to both Region's bottom line. We aren't asking to "support Africa"; we are inviting to "profit from the shift."
2. The Leverage on "The AfCFTA Effect" ; In 2026, the African Continental Free Trade Area (AfCFTA) is the largest free trade zone in the world.
 - ▶ The Logic: Considering the AfCFTA, a Chinese manufacturer knows: "If you build a factory in Ghana or Nigeria or any other West-African country, you aren't just selling to 30 million or 200 million people—you are selling to 1.4 billion people duty-free."
 - ▶ Why it works: It addresses the "Scale" problem. High-level investors only move for large-scale opportunities
 - ▶ Urgency: 2026 is a "historic window," giving us the opportunity to connect businesses to businesses on a cross border platform which is well vetted and encouraged by both regions.
 - ▶ The "AfCFTA" Factor: the trade area, which signals to Chinese investors that they can reach the entire continent through these specific countries.
 - ▶ Focus on Action: We are a Transactional Engine offering Direct Access to both African and Chinese businesses, and we focus on fully Vetted Partners who have the ability to expand value and reach in various sectors. This isn't just a place for speeches—it's a place for deals.

WHY AFRICA-CHINA BUSINESS & INVESTMENT SUMMIT?

THE ECONOMIC RELEVANCE TO AFRICA'S ECONOMY

3. It Establishes "Strategic Friction Reduction"; The biggest barrier to Africa-China trade is distrust and bureaucracy.

- ▶ The Logic: This Summit promises to "Decouple Risk" by providing "vetted partners" and "direct access to legitimate sector based Businesses, Government Agencies or Ministries, and a platform to close legitimate deals."
- ▶ Why it works: We are providing a shortcut. A Chinese CEO would normally spend six months trying to get a meeting with an African Minister and vice-versa an African CEO would; we are offering it in a 10-minute Platinum session. Hence our Diamond, Gold & Platinum sponsor support fee is incredibly cheap compared to the alternative of pushing deals on-ground by themselves.

4. It Targets "Geopolitical De-Risking"; With global trade tensions (US-China-EU), Chinese firms are looking for "neutral" ground to manufacture goods for global export, trade without fluctuating tariffs and Invest in a robust and growing economy.

- ▶ The Logic: By positioning Ghana, Nigeria, Sierra Leone and Liberia as the "New Frontier" the safe havens for global trade and investment gateways to Africa.
- ▶ High-level Government officials like Ministers, Investment Commission Chairman, Seasoned businessmen and women who have the power to influence National decisions and projects will be in attendance with their list of key sectors needing partnerships & investments.
- ▶ Why it works: Government approval from all sides, Ministerial list on relevant sectors needing private and public sector Investments, Direct entry into the African market, State Owned Enterprises (SOE's) and Private businesses close deals during and after the Summit.

5. It Validates the "Digital Silk Road"; The 10,000-20,000+ online attendees, we prove that the summit isn't just a physical room—It's a powerful media event connecting companies across borders.

- ▶ Why it works: For a sponsor, the "Cost Per Impression" (CPI) drops significantly. They aren't paying/supporting the programme to talk to approximately 1300+ people in the room in-person; they are paying to be seen by 10,000-20,000+ industry leaders on a digital platform as well.

OUR TARGET GROUPS

Pillar 1: The Chinese "Industrial Capacity" Group

These are your primary sources of **Sponsorship Revenue** and **FDI (Foreign Direct Investment)**.

- ▶ **Tier 1 Manufacturers:** Companies in solar energy, EV assembly (BYD, GWM), and affordable consumer electronics seeking to set up "Made in Africa" factories to avoid Western tariffs.
- ▶ **State-Owned Enterprises (SOEs) & Construction Giants:** Firms involved in the "Simandou Effect" logistics, railway, and port development.
- ▶ **Tech & Fintech Innovators:** Companies like Transsion (Tecno/Infinix) and payment giants (Alipay/WeChat Pay) looking to integrate with African mobile money systems.
- ▶ **Agricultural Technology Firms:** Producers of irrigation systems and crop-processing machinery.

Pillar 2: The African "Market & Resource" Group

These are your primary **Registration Fee** payers and the local "anchors" for the summit.

- ▶ **The "Big Three" Industrialists:** Leading business owners from **Nigeria, Ghana, and Liberia** who have the local land, licenses, and labor force but need Chinese machinery or capital.
- ▶ **Agro-Processors:** Cocoa, cashew, and rubber exporters looking for "value-addition" machinery to process raw goods before export.
- ▶ **Real Estate & Infrastructure Developers:** Private firms building the "New Cities" and industrial parks across West Africa.
- ▶ **Import/Export Agents:** The "middlemen" who handle the logistics, clearing, and distribution of goods between Guangzhou and African ports.

OUR TARGET GROUPS

Pillar 3: The Public Sector & Policy Makers

These are the "**Value-Added**" targets that justify your **Platinum Sponsorship** prices.

- ▶ **Ministers of Trade, Industry, and Energy:** From Ghana, Nigeria, and Liberia.
- ▶ **Investment Promotion Agencies (IPAs):** Specifically GEPA (Ghana), NEPC (Nigeria), SLIEPA (Sierra Leone), and NIC (Liberia).
- ▶ **Special Economic Zone (SEZ) Authorities:** Managers of Free Trade Zones who can offer tax holidays to sponsors on the spot.
- ▶ **Diplomatic Corps:** Ambassadors and Commercial Attachés who facilitate the "Visa Invitation Letters."

Pillar 4: The Digital & Professional Service Group

- ▶ These are your high-volume **Online Attendees** and service-based sponsors.
- ▶ **SME Entrepreneurs:** Thousands of young African and Chinese business owners looking for "how-to" knowledge on starting cross-border trade.
- ▶ **Professional Service Firms:** Law firms, tax consultants, and logistics providers who specialize in China-Africa regulations.
- ▶ **Development Finance Institutions (DFIs):** Representatives from Afreximbank, China Development Bank, and the African Development Bank looking for bankable projects to fund.

Target Group Summary Table (The Logic)

Group	Primary Benefit	Revenue Type
Chinese Manufacturers	Market entry & Tariff avoidance	Platinum/Gold / Diamond Sponsors
African Industrialists	Technology & Capital access	3-Person Registration
Public Sector	FDI Attraction & Job Creation	Keynote Speakers (Free/Partners)
Digital Entrepreneurs	Networking & Market Insights	Online Attendance

- ▶ By targeting these specific groups, we create a Closed-Loop Ecosystem.
- ▶ The Chinese manufacturer needs the African industrialist's ; the industrialist, manufacturer and Investors needs the Minister's permit and support; and the online attendee wants to learn from all of them as well as network online.

THE OPPORTUNITY (THE "WHY NOW?")

- ▶ **Economic Relevance to Africa and China.**
- ▶ **Direct Investment:** Each "Gold/Platinum" meeting between a Chinese company and an African minister can lead to MoUs worth millions. Historically, every \$1 spent on B2B summits generates \$12 in downstream economic activity (Trade/Contracts).
- ▶ **Bridging the Trade Deficit:** By targeting 20,000 Chinese online attendees, you are giving African SMEs a direct marketing channel to the Chinese consumer, helping to narrow the \$60bn trade deficit currently faced by the continent.
- ▶ **The "Reliable" Corridor:** This summit serves as the bridge for the Free Trade Zones in Africa, positioning them as the primary entry points for Chinese manufacturers looking to escape US/EU tariffs by "Manufacturing in Africa."

TARGET MARKETS (WEST-AFRICA & CHINA)

Target Markets (Ghana, Nigeria, Liberia and Sierra Leone)

Country	Sponsorship Value Proposition
Nigeria	Access to 220M+ consumers and the Lekki/Ogun-Guangdong Free Trade Zones.
Ghana	Entry into the "20-Year Green City" project and the AfCFTA Secretariat HQ.
Liberia	Priority access to the "Simandou Effect" infrastructure and mining logistics boom.
Sierra Leone	Technological advancement, infrastructure and mining logistics boom.

The Delegate Profile (High-Intent Buyers)

- ▶ **1000 Chinese Corporations:** Looking for joint-venture partners.
- ▶ **300 African Industrialists:** Ready with land, licenses, and local labor, looking for machinery manufacturers, product producers, trading companies, etc..
- ▶ **15 Keynotes:** Direct access to Ministers of Trade, former Presidents, and Investment Promotion CEOs.
- ▶ **20,000+ Online Viewers:** Mass visibility via WeChat/Douyin streaming.

HOW TO PARTNER IN THE SUMMIT

BY BEING AN ORGANIZING PARTNER

- ▶ Organizing partners act as the backbone of the event, sharing the responsibility of execution and strategic planning.
- ▶ **Role:** Handling high-level logistics, government relations, or guest procurement.

BY BEING AN INVESTOR

- ▶ Investors provide the "growth capital" needed to scale the forum's reach and quality in exchange for a share of the event's success.
- ▶ **Role:** Providing upfront funding for operations, venue deposits, and large-scale tech infrastructure.
- ▶ **How to Partner:** Investment can be structured as an equity stake in the forum entity or a "profit-share" model based on ticket sales, exhibition booth revenue, and sponsorship returns.

BY BEING A SPONSOR

- ▶ Sponsors seek brand visibility and direct access to the forum's influential audience.
- ▶ **Role:** Funding specific segments of the event (e.g., the Gala Dinner, VIP Lounge, or a specific Industry Track).
- ▶ **How to Partner:** Companies can choose from tiered packages (Platinum, Gold, Silver). In return, they receive logo placement, speaking slots, and "matchmaking" opportunities to meet potential African or Chinese business leads directly.

BY OFFERING MARKETING SERVICES / OTHER RELEVANT SKILLS

- ▶ Technical and creative partners ensure the forum has a professional image and a wide digital footprint.
- ▶ **Role:** Managing PR, social media, SEO, or professional translation services (Mandarin/English/French).
- ▶ **How to Partner:** Service providers can work as "In-Kind Partners," where they provide their services (e.g., building the event website or managing the press run) in exchange for branding rights or a reduced booth fee.

What African Businesses Benefit

1. Technology Transfer & Industrialization

- ▶ **The Benefit:** Direct access to affordable, high-quality Chinese machinery for **Agro-processing** (e.g., cocoa in Ghana, rice in Nigeria) and **Light Manufacturing**.
- ▶ **The Impact:** Small and medium-sized enterprises (SMEs) can transition from being raw-material exporters to "Value-Added" producers, increasing their profit margins by **300–400%**.

2. Zero-Tariff Market Access

- ▶ **The Benefit:** Leveraging China's 2026 policy of **100% Zero-Tariff treatment** for products from 53 African nations.
- ▶ **The Impact:** African exporters (especially in the food, beverage, and specialty minerals sectors) can enter the Chinese market of **1.4 billion consumers** without the burden of heavy customs duties, making their goods immediately competitive.

3. Joint Venture (JV) Opportunities

- ▶ **The Benefit:** Finding Chinese partners looking to "localize" their production to escape high shipping costs and global trade tensions.
- ▶ **The Impact:** African businesses provide the land, local labor, and legal licenses, while the Chinese partners provide the **technical know-how and capital**. This splits the risk and accelerates business growth.

4. Direct Trade Financing

- ▶ **The Benefit:** B2B matchmaking with Chinese and African banks (like **Standard Bank/ICBC** or **Afreximbank**) that specialize in China-Africa trade.
- ▶ **The Impact:** Solves the #1 problem for African SMEs: **Lack of Credit**. Businesses can secure trade finance or export credit insurance denominated in **Yuan (RMB)**, reducing reliance on the fluctuating US Dollar.

What African Businesses Benefit

5. Supply Chain Integration (The Simandou Effect)

- ▶ **The Benefit:** Becoming a certified local supplier for the massive infrastructure and mining projects led by Chinese SOEs.
- ▶ **The Impact:** Logistics, catering, construction, and maintenance firms in West Africa can secure **multi-year service contracts** linked to the new railway and port corridors being built across the region.

6. Digital Economy & E-commerce Skills

- ▶ **The Benefit:** Training and access to Chinese digital platforms like **Alibaba, JD.com, and Pinduoduo**.
- ▶ **The Impact:** African brands gain the "digital literacy" to package and label their products for the Chinese middle class, allowing them to sell directly to consumers via **Live-Stream Commerce**.

What Chinese Businesses Benefit

1. Market Diversification & "De-Risking"

- ▶ **The Benefit:** Establishing a footprint in West Africa serves as a hedge against trade volatility and tariffs in Western markets (US/EU).
- ▶ **The Impact:** Chinese manufacturers can bypass protectionist barriers by producing goods locally in Africa, ensuring long-term global supply chain resilience.

2. Access to the AfCFTA (1.4 Billion Consumers)

- ▶ **The Benefit:** By setting up "Made in Africa" assembly plants, Chinese firms gain duty-free access to the entire continent under the **African Continental Free Trade Area**.
- ▶ **The Impact:** A smartphone or EV assembled in Lagos or Accra can be sold in Kenya or Egypt without the heavy import taxes usually applied to goods shipped directly from Shanghai.

3. Lower Production & Operating Costs

- ▶ **The Benefit:** Access to a young, cost-effective labor force and raw materials at the source (cocoa, minerals, timber).
- ▶ **The Impact:** Moving "low-end" manufacturing (textiles, simple assembly) to Africa allows Chinese parent companies to focus their domestic operations on high-tech R&D while maintaining high-margin production abroad.

What Chinese Businesses Benefit

4. Direct G2B Access (Regulatory Clarity)

- ▶ **The Benefit:** Face-to-face meetings with Ministers from Ghana, Nigeria, and Liberia to negotiate Special Economic Zone (SEZ) incentives.
- ▶ **The Impact:** Companies can secure tax holidays, land grants, and streamlined work permits on the spot, cutting months of bureaucratic "red tape" and reducing the cost of market entry.

5. Securing Critical Resources (The Simandou Ripple)

- ▶ **The Benefit:** Aligning with the new infrastructure corridors to secure stable supplies of high-grade iron ore, lithium, and agricultural products.
- ▶ **The Impact:** Chinese firms gain first-mover advantages in the logistics and service sectors surrounding these massive mining and rail projects, ensuring they control the flow of materials back to China or to local factories.

6. Branding & "Localization"

- ▶ **The Benefit:** Shifting from "Foreign Exporter/Importer" to "Local Partner."
- ▶ **The Impact:** In the 2026 economic climate, African governments favor companies that create local jobs. Chinese businesses that attend this summit can build the "Local Hero" brand, which protects them from future regulatory shifts and wins them massive government procurement contracts.

CHINA

Support from the Governments

promoting and building the bridge between Africa & Chinese Businesses and Investments

1. Institutional Trust & Matchmaking

- ▶ **CCPIT Integration:** Formal partnership with the China Council for the Promotion of International Trade to mobilize their database of 300+ vetted manufacturers.
- ▶ **IP Protection Framework:** Access to on-site legal mediation and Intellectual Property registration services, providing a "safe environment" for tech-driven Chinese sponsors.

2. Security & Logistics Support

- ▶ **State Security Detail:** Providing official police escorts and high-level security for the VIP delegates and investors who come to Shanghai.
- ▶ **Protocol Officers:** Assigning government protocol staff to assist with the "B2G" (Business-to-Government) private meetings, ensuring they follow official diplomatic standards.

3. Financial Incentives & Grants

- ▶ **Exhibition Industry Subsidies:** Leveraging Shanghai's "World-Class Business Environment" grants for high-impact international trade forums.
- ▶ **Venue Cost Stabilization:** Utilization of government-guided pricing for Tier-1 venues (e.g., NECC or Pudong Expo) to ensure budget predictability and higher profit margins.

4. Seamless Administrative Facilitation

- ▶ **"One-Stop" Permitting:** Accelerated processing for public assembly, fire safety, and event licenses through the Shanghai Digital Government Portal.
- ▶ **Customs Green Channel:** Simplified temporary import/export protocols for African delegates bringing raw material samples and industrial prototypes for display.

5. Diplomatic & Logistics Coordination

- ▶ **Expedited Visa Services:** Coordination with the MFA to provide "Summit-Specific" visa fast-tracking for the 300+ African Industrial Leaders.
- ▶ **VIP Protocol Services:** Dedicated arrival lanes and government-assisted "Meet-and-Greet" logistics at Pudong (PVG) and Hongqiao (SHA) airports for Ministerial & Presidential delegations.

6. Strategic Branding & Promotion of Shanghai

- ▶ **Official Calendar Inclusion:** Listing within the "Shanghai Major Exhibition Calendar 2026."
- ▶ **State Media Amplification:** Facilitated coverage by Shanghai Media Group (SMG) and regional trade journals to maximize the "Digital Silk Road" reach.

AFRICA

Support from the Governments

promoting and building the bridge between Africa & Chinese Businesses and Investments

1. Diplomatic & Visa Facilitation

- ▶ **Priority Visa Processing:** Establishing a "Green Channel" at embassies in Beijing, Shanghai, and Guangzhou to guarantee 48-hour visa turnarounds for business people, investors and stakeholders who attended the Summit.
- ▶ **Visas-on-Arrival:** Issuing official government waivers that allow VIP Chinese sponsors to receive their entry permits upon landing at Kotoka or Murtala Muhammed International Airports. In advance to the Summit, to discuss their projects and Investments with the Ministers & other related Government officials.

2. Policy Incentives & "Deal-Room" Authority

- ▶ **Tax Holiday Commitments:** Providing written frameworks for 5-to-10-year corporate tax exemptions for companies that sign MoUs during the summit.
- ▶ **Special Economic Zone (SEZ) Access:** Offering pre-approved land titles or subsidized factory shells within Free Trade Zones specifically for summit participants.

3. High-Level Endorsement & Presence

- ▶ **Presidential/Ministerial Attendance:** Confirming the presence of the Minister of Agriculture-Ghana, Minister of Education-Liberia, Minister of Lands and Natural resources – Ghana, Minister of Mines and Energy – Liberia, Minister of Trade - Ghana, amongst other Government officials across Africa who will attend and make presentations concerning the key sectors they seek investment and partnership for. These sectors are communicated to the Event Organizers in advance to facilitate relevant pairing and effective closing of partnership opportunity. The highest level of "Political Will" is available.
- ▶ **Keynote Policy Speeches:** Using the summit as a platform for Ministers to announce new industry-specific incentives (e.g., new incentives for EV assembly or cocoa processing, others).

4. Security & Logistics Support

- ▶ **State Security Detail:** Providing official police escorts and high-level security for the VIP delegates and investors who come to Africa.
- ▶ **Protocol Officers:** Assigning government protocol staff to assist with the "B2G" (Business-to-Government) private meetings, ensuring they follow official diplomatic standards.

5. Media & Marketing Amplification

- ▶ **National Broadcast Time:** Granting airtime on national television (GTV, NTA) and newspapers to promote the summit's objectives.

CONCLUSION

Defining the Decade of African Industry

We stand at a crossroads where the industrial capacity of the East meets the untapped potential of the West. The **Africa-China Business & Investment Summit** is far beyond than a financial venture; it is the catalyst for a fundamental shift in the global economic order. By bridging the gap between Chinese technical mastery and the African Continental Free Trade Area, doing what decades of traditional aid failed to do: **We are building the infrastructure of self-reliance!**

Every partnership signed at this forum, every factory localized in Africa, and every value-addition plant built in Ghana, Nigeria, Togo, Liberia, Ethiopia, South-Africa or any other African country represents a step away from raw-material dependency and toward industrial partnership and growth with China. We are not just creating a platform for trade; we are igniting a multi-generational engine of job creation, technological transfer, and wealth democratization for over 1.4 billion people.

Investing in this summit is an investment in the '**Simandou Effect**' scaled across an entire continent. It is an investment in a future where 'Made in Africa' is a global standard, powered by Chinese partnership.

The window of 2026 is open. We invite you to join us, not merely to witness history, but to own a stake in the most significant economic transformation of our time.

Let us build this future, together!

FORMER EVENTS ORGANIZED

SOME FULLY VETTED FIRMS

- ▶ PLUS ALLIANCE MERIDIAN LTD has a policy of Excellence and Transparency, Below are a few of the companies with whom we have fully vetted and approved. We have cooperation contracts with most.
- ▶ They range from Mining Companies, Government SEO's, Food Production Companies, Construction Companies, Trading, IT and advanced Technological Firms, Fintech Companies, among others.
- ▶ The goal is to engage the “systems that work” to create a prototype to the End goal of this Business and /Investment Summit
